## PROJECTS

---

### Dev Team Builder | *React.jsx, Supabase, JavaScript*

[github.com/asamidinov173/crewmates](https://github.com/asamidinov173/crewmates)

- Developed a web application that allows users to create and edit development teams based on name, position, and skills.
- Built with **React.jsx** for dynamic UI and **Supabase** for backend database and authentication, practicing full-stack development and collaborative workflows.

### Family Stories | *JavaScript, HTML/CSS, React*

[github.com/asamidinov173/famarch](https://github.com/asamidinov173/famarch)

- Developed a web application that allows families to share and comment on stories and events, fostering engagement and collaboration.
- Implemented core features including user posts, commenting system, and responsive UI, while collaborating with other contributors using **Git** and **GitHub**.

## EXPERIENCE

---

### Software Engineer Fellow

Jun 2025 – Present

App Brewery

New York, NY

- Completing a full-stack development program covering *HTNL, CSS* and *JavaScript* for building modern, responsive user interfaces.
- Gaining practical experience in modern web development workflows, including *Git/GitHub, APIs* and responsive design.
- Exploring *Web3* technologies and *DApps*, expanding knowledge in decentralized applications and blockchain-based solutions.

### Manager

Feb 2024 – May 2025

Lokum Restaurant

New York, NY

- Implemented efficient scheduling and task delegation, improving team productivity and reducing wait times during peak hours.
- Maintained high standards of customer service and conflict resolution, resulting in improved guest satisfaction and repeat business.
- Led and coordinated a 16-person hospitality team (waiters, bussers, bartenders, runner, and hostesses), overseeing floor operations, reservations, and social media content to ensure seamless guest experience.

## LEADERSHIP

---

### IT / Tech Support Volunteer

May 2022 – Oct 2022

Local NGO

Bishkek, Kyrgyzstan

- Maintained and updated websites for local NGOs, enhancing user experience and accessibility.
